

What is my email address ?

I need to make sure you are not an automated spammer trying to get my email address. My email is X@Y.Z but you will have to figure out X, Y, and Z. Everything is in lower case in the address. Choose which ever category you prefer:

- **Mathematician/Scientist/Engineer**

Encode the 26 English letters a, b, ..., z by 1, 2, ..., 26 respectively.

The string X is the sequence: $(14641)^{1/4}$, $\sqrt{25!/24!}$, $\sum_{n=1}^3 n^2$

The string Y is the sequence: $2^5 - 2^3 + 2^1$, $e^{\pi i} + 6$, $\log_2 128$, $\int_2^3 2x dx$, $36 \sin(\pi/6)$

The string Z is the sequence: $4! - 3$, $3^3 - 2^3$

- **Trivia Buff**

X is the first three letters of the state of residence of the two sisters who created the song “Happy Birthday to you”.

Y is the first five letters of the last name of the actor born September 19, 1984 in Woodstock, Ontario, Canada whose first name contains the letters of my three-letter first name in their correct order.

Z is the two-letter abbreviation of the country that hosted the Olympics in 1904.

- **Other**

X is the last three letters of the word “token”.

Y is my last name.

Z is just the middle two letters of the second word after the first occurrence of Z in this sentence.
